Senior Product Designer who builds. 4+ years in EdTech, fintech, & consumer, with a CS background & an AI-native workflow.

EXPERIENCE

Lollypop Design Studio Senior UX Designer
AUG 2026 - PRESENT

- Leading end-to-end design for an HR consulting firm's website, from discovery through high-fidelity design and handoff.
- Lead pre-sales design for enterprise pitches; built POCs & pitches with Claude Code and Figma Make instead of static mockups, helping win 4 enterprise clients across fashion, EdTech & Consulting domains.
- Introduced AI-assisted prototyping into client workflows, cutting concept-to-clickable-prototype time from 4 days to 4 hours.
- Planned and conducted design workshops for the Mumbai team on portfolio building and using Figma Make effectively.

Lollypop Design Studio Associate Senior UX Designer
NOV 2024 - JULY 2026

- Set UX direction for a web-based B2B EdTech platform with an ambiguous brief. Led problem framing, designed the end-to-end experience, and shipped annotated, component-level specs that reduced back-and-forth with developers across sprints.
- Ran a heuristic audit of a financial services product across 100+ screens, identified 15 high-priority usability issues, and delivered a prioritized fix roadmap.
- Stepped in to support colleagues across multiple client projects alongside my own workload, earning Lollypop's Above & Beyond Award (Q3 2025).

Revent Solutions Product Designer
OCT 2023 - JULY 2024

- Designed a B2C fintech app end-to-end: 125+ high-fidelity screens, from wireframes to dev-ready specs.
- Restructured the product's information architecture and validated the changes through analytics.
- Ran competitive analysis across 2 adjacent products to define a differentiated brand identity and UX voice.

University of Maryland UX Designer
MAR 2022 - MAY 2023

- Ran a heuristic evaluation that found 34 usability issues, then redesigned flows.
- Designed and prototyped a mobile experience focused on content hierarchy and user flows.

EDUCATION

University of Maryland MS in Human Computer Interaction — *GPA: 4.00 · MAY 2023*

University of Mumbai BTech in Computer Engineering — *GPA: 9.36 · MAY 2021*

PROJECTS

Strippd — Live karaoke track generator. Designed and built end-to-end with Claude Code, covering UI, audio-processing logic, and deployment to production.

AI Labs — Prototypes exploring AI-native tools, including a Figma plugin (Link'd), a meal planner, and a coffee tracker.

SKILLS

Design Product & platform UX, UX strategy, user research, interaction and visual design, design systems, prototyping
