WORK EXPERIENCE

Lollypop Design Studio | Associate Senior UX Designer — Nov 2024 – Present | Mumbai

- **Sourced 2 enterprise-scale clients** through pre-sales leadership — built POCs, estimations, and approach decks that contributed to closing major brand partnerships and a 30% proposal win rate.
- Defined UX direction for a web-based EdTech platform — led problem framing, designed the end-to-end experience and a supporting component library; cut processing time 25% and drove a **50% increase in user adoption** post-launch.
- Executed a full UX audit of a financial services product: identified 15 usability issues across 100+ screens and delivered a prioritized fix roadmap grounded in heuristic evaluation.
- Reduced developer handoff friction by shipping annotated specs with component-level guidance, accelerating feature releases across sprints.

Revent Solutions | UX Designer — Oct 2023 – July 2024 | United States, Remote

- Shipped end-to-end design for a B2C fintech app — 125+ high-fidelity screens from wireframes to dev-ready specs — cutting **development time 30%** through precise annotations.
- Restructured information architecture across the product; drove a **20% lift in page views per session**, validating the IA through analytics.
- Conducted competitive analysis across 2 adjacent products to define a differentiated brand identity and UX voice that shaped the product's market positioning.

University of Maryland | Product Designer — Mar 2022 – May 2023 | United States

- Ran a heuristic evaluation that uncovered 34 usability issues; redesigned flows that reduced error rates 53% across the app.
- Designed and prototyped a mobile experience focused on content hierarchy and user flows; increased task completion rate 37%.

EDUCATION

University of Maryland | MS in Human Computer Interaction — GPA: 4.00 | May 2023

KJ Somaiya College of Engineering | BTech in Computer Engineering — GPA: 9.36 | May 2021

PROJECTS & COMMUNITY

- **Strippd** — Vibe-coded a live karaoke track generator using Claude Code; handles real-time pitch-shifting so singers get production-quality backing tracks. Live at bagsphadnis-strippd.hf.space.
- **Agentic AI Growth Engine** (Freelance) — Designed the product experience for an AI-powered platform that automates organic search visibility, helping businesses optimize content, entities, and crawlability through a system of AI agents.
- **Design Workshops** — Planned and facilitated sessions for Lollypop's Mumbai team on portfolio building and Figma Make, helping designers level up their craft and tooling.

SKILLS

Design & Research | Information Architecture, Interaction Design, Design Systems, Usability Testing, A/B Testing, Heuristic Evaluation, Accessibility

Tools | Figma, Claude, VS Code, GitHub, Vercel, Jira, Adobe Creative Suite, Miro, ClickUp

Technical | HTML, CSS, Javascript, React.js, Python
